

Platinum Business Services, LLC

Media Release:

Platinum Business Services – HIPPA Risk Assessment

September 23, 2013, (Laurel, MD) - Platinum Business Services, LLC (Platinum) has contracted to support a Health Insurance Portability and Accountability Act (HIPAA) Risk Assessment for a national Healthcare provider. HIPPA privacy concerns are shared in Healthcare organizations, where healthcare, financial, and other services continue to be delivered via the web with increasingly higher levels of personalization of health metadata. The proliferation of social media, Smart Grid, mobile, and cloud computing, as well as the transition from structured to unstructured data and metadata environments, have added significant complexities and challenges for the Healthcare industry in safeguarding health related privacy.

Platinum's HIPPA experience brings the right blend of experienced healthcare IT security professionals to undertake the comprehensive security protocols such as HIPPA. As part of our support, Platinum's HIPAA Risk Analysis will evaluate current security issues and our Evaluation and Assessment will evaluate all open HIPAA issues. Our Cybersecurity Strategy and Risk Management Program is an ongoing process, in which we assist our clients in regularly reviewing and detecting PHI, PII and e-PHI security incidents, periodically evaluate the effectiveness of security measures put in place, and regularly reevaluate potential risks.
