

Media Release:
Platinum HUBZone SBA Certified

April 28, 2021 (Laurel, MD) - Platinum Business Services, LLC (Platinum), a growing provider of digital services for the Federal Government, announced today the Small Business Administration (SBA) has approved Platinum as a “certified HUBZone small business concern.” Platinum is now eligible for HUBZone opportunities and is included on the list of certified HUBZone small business concerns found on their [SBA - SBA Profile](#). The HUBZone is a United States SBA program for small companies that operate and employ historically under-utilized business zones. According to the SBA, “the HUBZone program fuels small business growth in historically underutilized business zones with a goal of awarding at least three percent of federal contract dollars to HUBZone-certified companies each year.”

“Platinum is excited to add this SBA socioeconomic certification to our Federal contract capabilities. The opening of our **Innovation and Cybersecurity Digital Transformation Center** located at the BWTech Research and Technology Park, University of Maryland Baltimore Campus (UMBC), is an optimal advancement for our company. We recognize the need for additional certified HUBZone’s to fill set-aside requirements for our customers and our strong technical capabilities that are readily deployable in the Federal marketplace. We are equally thankful to have a positive impact on employment and hiring in Historically Under-utilized Business Zones. Each of these impactful steps has made a positive difference for our customers and employees alike”, said Jody Venkatesan, Platinum’s President & CEO. The HUBZone certification is another significant milestone in our company’s ability to directly reach and support our Federal acquisition readiness while improving the innovation and technology needs of Federal agencies.”
